- Agile/Scrum** team collaboration with excellent problem-solving skills.
- Basic backend development using **NestJS**, **Express.js**
- Database experience with **MongoDB**, **PostgreSQL**

CERTIFICATIONS

- Cybersoft Academy – Frontend Developer Certificate
- IELTS 5.5
- HSK Level 3

PROFESSIONAL SUMMARY

Frontend Developer with 5+ years of experience building scalable web and mobile applications using React, TypeScript, and React Native. Specialized in modern UI development, performance optimization, and cross-platform architecture. Proven ability to lead feature development, collaborate in Agile teams, and deliver complex products on time. Passionate about building intuitive user experiences and continuously improving code quality.

PROFESSIONAL EXPERIENCE

Frontend Developer

SALTO Vietnam Co., Ltd | 03/2024 - 06/2025

- Developed core modules for the Sokucom internal communication platform, using **React.js**, **tailwindcss**, **Context API** and **clean architecture (DDD)**.
- Built and maintained essential features including:
- SMS module**: send SMS, create SMS templates, and manage task scheduling.
- Email module**: email templates, email task creation and automation.
- Zalo module**: built Zalo template and campaign management features.
- Designed and implemented a **Kanban** board to streamline task and workflow tracking.
- Collaborated with cross-functional teams to ensure real-time updates and system responsiveness using **Firebase** and **Socket.IO**.
- Built and optimized the company's **SEO** landing site using **Next.js** sokucom.vn, ensuring fast load times, semantic HTML, and structured metadata for search engine visibility.
- Ensured cross-browser compatibility, mobile responsiveness, and followed best practices for accessibility (a11y) and performance (Lighthouse score >90).
- Contributed to code reviews, project planning, and documentation within Agile sprints.

Frontend Developer

BAP IT CO., JSC | Mar 2021 – Dec 2023

- Developed and maintained various frontend features for multiple web platforms including Share-gram, Insight Edge, Libes, and Microad Web.
- Built and optimized real-time chat, live streaming, and digital product upload functionalities using **React.js**, **Redux**, **Firebase**, and **AWS**.
- Implemented key modules like payment integration, product management, and **CMS** systems for admin use.
- Improved authentication flows, enhanced performance, and contributed to scalable component architecture using **TypeScript** and **Socket.IO**.
- Collaborated closely with cross-functional teams in Agile environments to deliver high-quality, on-time deliverables.
- Participated in regular code reviews and mentored junior developers on best practices and code standards.

PROJECTS LIST:

Sokucom - (main.sokucom.vn)

Frontend Developer | SALTO Vietnam | Mar 2023 – Present

- Developed internal CMS features for **SMS**, **Email**, **Zalo**, and **Kanban** board, using **React.js**, **TailwindCSS**, **Context API**, and **Socket.IO**.
- Built modular components to support task creation, template editing, and notification scheduling.

Sokucom S0 - Sokucom.vn

Frontend Developer | SALTO Vietnam | Mar 2023 – Present

- Developed and maintained CMS features (SMS, Email, Zalo integration, Kanban board) for the [Sokucom](https://sokucom.vn) project's internal tools and SEO site using **Next.js**, **TailwindCSS**, **ShadCN UI**, **Context API**, and **Redux Toolkit**.
- Collaborated on real-time features with **Socket.IO**, contributing to a responsive, scalable, and SEO-optimized frontend architecture.
- Built and optimized the SEO landing page [Sokucom.vn](https://sokucom.vn), achieving Lighthouse scores above 90, with semantic HTML and enhanced mobile performance across devices.

Sharegram

Frontend Developer | BAP IT | Mar 2022 – Oct 2023

- Built social platform for digital content with live stream, real-time chat, and donation using **React.js**, **Firestore**, and **AWS S3**.
- Integrated **Tiger Payment gateway** and implemented product management UI.
- Designed file upload, product purchase flow, and admin CMS dashboard.
- Integrated Tiger Payment API for seamless transaction handling.

Insight Edge (Web & App)

Frontend Developer | BAP IT | 2022 – 2023

- Built deal-matching system with features like product posting, **CRUD**, and **chat**.
- Used **Reactjs**, **React Native** for mobile version, integrated **Firestore** Chat and authentication flow.
- Applied **MobX-State-Tree** for scalable state management.

Libes

Frontend Developer | BAP IT | 2022

- Built NFT-based betting system frontend with Web3.js, React.js, and Firebase.
- Integrated secure withdraw/deposit modules, and real-time game dashboard.

CRM Cyberlearn

Frontend Developer | Cybersoft Academy | 2020 – 2021

- Developed frontend for CRM to manage student profiles, revenue tracking, and learning content.
- Built UI components using Ant Design, React.js, with backend integration.
